	(i) Sugar Prices by Areas	29
	(j) Sugar prices compared with corn sweetener prices	30
	(k) Refined sugar production and stocks and distribution	
	of corn sweeteners by primary distributors	31

MARKET REVIEW

On June 6 the Department announced an increase of 200,000 tons -- from 10.4 to 10.6 million tons -- in the domestic sugar requirements for calendar year 1967. The Department noted that so far this year distribution of sugar has been running at about the same rate as last year when final requirements were determined to be 10,375,000 tons, but with the period of heavy seasonal demand now at hand and refiners making commitments for their summer needs, the increased quotas should facilitate the orderly planning for and movement of sugar. The action increased the domestic beet quota 95,333 tons, the mainland cane area quota by 34,667 tons and the quotas for foreign countries by 70,000 tons.

Deliveries of sugar for U. S. consumption through June 10 were reported as 4,147,000 tons, raw value, compared to 4,122,000 during the same period last year. Regionally, there also was little difference from year to year. Through April, distribution was one half of one percent higher in the North Central States than last year and in the other four regions smaller by from 0.7 to 3.6 percent. By types of users, the year to year change is more marked. During the first quarter, canners and preservers received eight percent less sugar than last year while the beverage trade took five percent more and bakers three percent more; changes for deliveries to other groups of food processors were less significant; deliveries to outlets other than food processors dropped seven percent.

Inventories of raw and refined sugar held by cane refineries as of June 16 totaled 859,000 tons -- about 133,000 tons more than a year earlier. Inventories of refined beet sugar of 1,225,000 tons were about 140,000 tons less than a year earlier.

Puerto Rican sugar production through June 11 totaled approximately 788,000 tons, raw value, compared with 821,000 tons for the same period last year. Sugar recovery in relation to cane ground was 9.907 percent this year and 9.304 percent last year. Sugar production after June 11 amounted to 62,000 tons in 1966 and to 29,000 tons in 1965 and 1964.

Sugar production in Hawaii through June 10 amounted to 476,954 tons compared to 555,462 tons produced last year through June 11.

The spot price for raw sugar, duty paid at New York was 7.32 cents per pound on June 19. It had averaged 7.25 cents in May and 7.20 cents in the January-May period.

Until early in June there had been no changes this year in refined sugar price quotations for the basis pack (100 pound paper bags). Since then there have been announced increases ranging from .15 to .20 cent per pound in all sales territories other than the northeast. The new quotations are shown below, although orders were being considered at the old levels for varying periods.

	<u>Cane</u>	<u>Beet</u>
	<u>Cents per pound in 100 lb. paper bags</u>	
Northeast	10.60	
Southeast	10.35	
Gulf	10.20	
Eastern beet		9.65/9.80
Chicago-West	10.05	9.85
Direct shipment territory	9.65	9.75
Lower Pacific Coast	10.10	10.10
Northwest Intermountain	10.00	10.00

On June 2, F. O. Licht, the European sugar statistician, published his second estimate of world sugar balance for the period September-August 1966-67. He now estimates world production of 65.5 million metric tons and world consumption of 65.7 million tons. This compares with the first estimate for the same period published in February in which he indicated world production of 66.4 million tons and consumption of 65.6 million tons. According to his current computations, world stocks of sugar had been 18.3 million metric tons, raw value, on September 1, 1965, 18.0 million on September 1, 1966 and would be 17.5 million on September 1, 1967.

The spot price for world market raw sugar on the New York Coffee and Sugar Exchange averaged 2.59 cents per pound during May and 1.87 cents for the first five months of the year. On June 19 the spot price was 2.20 after having peaked at 3.10 on June 5 in the midst of the Middle East crisis. The futures market has been extremely active since early June.

As of June 19 futures prices ranged from 2.26/28 cents per pound for September 1967 position up to 2.83 cents per pound for the November 1968 position. At the high period on June 5 the range was from 3.45/48 for July to 3.75 for October 1968.

Dr. Raul Prebisch, Secretary General of the United Nations Commission on Trade and Development met with his 22 nation consultative group in Geneva on June 6, 7 and 8. No decision was taken as to whether a negotiating conference should be called for this fall. Dr. Prebisch plans to visit capitals in several countries late this month and early July to discuss the possibility of holding a negotiation conference.

SUGAR REQUIREMENTS FOR 1967 INCREASED

Secretary of Agriculture Orville L. Freeman on June 6, 1967 announced an increase of 200,000 tons in the determination of domestic sugar requirements (total quotas) to a total of 10.6 million tons for this calendar year.

The quota for the domestic beet sugar area is increased by 95,333 tons. The quota for the mainland cane sugar area is increased by 34,667 tons and quotas for foreign countries are increased by 70,000 tons.

So far this year, distribution of sugar has been running at about the same rate as last year when the final requirements determination amounted to 10,375,000 tons. However, the seasonal period of heavy demand is now at hand and sugar refiners are making commitments for their summer needs. On occasion this year, there have been temporary difficulties in arranging for prompt ocean transportation. Today's action will facilitate the orderly planning for and movement of sugar.

Sugar within quotas which has not been previously authorized may be authorized for importation at any time this year.

The quota increases and revised quotas resulting from the increase in total requirements are shown in the following table.

Production area	Change in quotas	Basic quotas	Temporary quotas and prorations pursuant to Sec. 202(d) 1/	Deficits and deficit proration	Total quotas and prorations
Short tons, raw value					
Domestic beet area	95,333	3,120,333			3,120,333

Total	200,000	9,193,309	1,406,691	0	10,600,000

1/ Includes the proration of quotas withheld from Cuba and Southern Rhodesia.

* Direct-consumption portion: Hawaii - 36,252 tons; Puerto Rico - 159,000 tons;
 Republic of the Philippines - 59,920 tons;
 Panama - 3,817 tons; and Ireland - 5,351 tons.

ADMINISTRATIVE ACTIONS

<u>Date announced</u>	<u>Nature of action</u>
May 12, 1967	Amends commitment of national sugarbeet acreage reserve in Arizona for 1962 and subsequent crops. (See May 18, 1967 Federal Register).
May 22, 1967	Designation of local producing areas eligible for abandonment and crop deficiency payments on the 1966 sugarcane crop in the Virgin Islands. (See June 7, 1967 Federal Register).
May 24, 1967	Updates the general program provisions relating to eligibility for Sugar Act payments in the domestic sugarbeet area. Some definitions previously included in other program regulations have been added. (See May 30, 1967 Federal Register).
May 25, 1967	Announced public hearings on fair prices for the 1967 Florida and Louisiana sugarcane crops and on whether the wage determinations applicable to fieldworkers -- which became effective Nov. 14, 1966 in Florida, and Oct. 10, 1966, in Louisiana -- should be continued or amended.

Places, dates, and local time of hearings are:

At Belle Glade, Fla., on June 20, 1967, in the Holiday Inn, beginning at 9:30 a.m.

At Houma, La., on June 23, 1967, in the Municipal Auditorium, 880 Verret Street, beginning at 9:30 a.m.

<u>Date announced</u>	<u>Nature of action</u>
May 25, 1967 (cont'd)	USDA requests that all interested persons appear at the appropriate hearings to present views and pertinent data. Information and recommendations are sought specifically in Florida on the need for other worker classifications such as workers employed in mechanical harvesting operations, and in Louisiana on changes in worker classifications or wage rate differentials, and on periods to be used to determine the season's average prices of raw sugar and blackstrap molasses. (See June 6, 1967 Federal Register).
June 2, 1967	Designation of local producing areas eligible for abandonment and crop deficiency payments on the 1966 sugarcane crops in Louisiana and Florida. (See June 8, 1967 Federal Register).
June 7, 1967	Updates the general program provisions relating to eligibility for Sugar Act payments in the Mainland cane sugar area. Some definitions previously included in other program regulations have been added. (See June 13, 1967 Federal Register).

Date announcedNature of action

June 15,
1967

Announced revised processor allotments of the 1967 sugar quota for the Mainland Cane Sugar Area. These allotments totaling 1,134,667 short tons, raw value, replace the previously established allotments totaling 1,045,932 tons which have been in effect since April 14. (Press Release USDA 1201-67).

The revised allotments reflect substitution of final production, marketing and inventory data in the allotment formula and an increase in the quota for the area of 34,667 tons announced on June 6. (Press Release USDA 1742-67). Previous allotments were based in part on estimated data and were limited to 95 percent of the quota then in effect. (See June 21, 1967 Federal Register).

STATISTICAL SERIES IN THIS ISSUEHIGHLIGHTS

1. May 1967 sugar deliveries for continental U. S. consumption 862,000 short tons, raw value (preliminary), up about 74,000 tons from April 1967 and up 37,000 tons from May 1966. January-May 1967 deliveries 3,840,000 short tons, raw value, up 9,000 tons from January-May 1966. Final data for April 1967 deliveries 788,000 short tons, raw value - previously published preliminary as 791,000 tons.
2. Primary distributors' stocks June 3, 1967 were 2,305,000 short tons, raw value (preliminary), up 5,000 tons from a year ago, and down 195,000 tons from April 30, 1967. During April refiners' stocks decreased 16,000 tons, beet processors' stocks decreased 70,000 tons, mainland cane processors' stocks decreased by 31,000 tons and importers of direct consumption sugar stocks decreased about 79,000 tons.
3. Charges to quotas January 1 to May 31, 1967 were 4,434,245 short tons, raw value, leaving a balance of 5,965,755 tons to be supplied within the 10,400,000 ton total.
4. Regionally, January-April deliveries, 1967 as compared to 1966 were up in 1 of the 5 regions: Increases -- North Central 0.6 percent. Decreases -- New England down 3.6 percent, West down 2.6 percent, South down 1.3 percent and Middle Atlantic down 0.7 percent.
5. First quarter 1967 sugar deliveries were larger to 5 of the seven industrial user groups than for the same 1966 quarter, and also larger to three of the four non-industrial user groups. To industrial buyers the national increase was 0.7 percent while non-industrial buyers decreased 6.6 percent. Corn refiners' total domestic shipments of corn sirup and dextrose during the first quarter of 1967 were down about 4.8 percent from the first quarter 1966.

Grand total ^{2/} (domestic & export)	5,464	5,887	2,309	2,280	7,773	8,167
Bulk blends ^{4/}	314	346	-	-	314	346

^{1/} Sirup mixers outside of the corn refining industry, except cane sugar refiners and beet sugar processors; the latter two are included with "Miscellaneous food industries."

^{2/} Due to rounding, totals may not be exact sums of individual items.

^{3/} According to the Census of Manufactures 1958, shipments of corn sirup solids were 63.7 percent of total shipments of miscellaneous refinery products. Since corn sirup solids contain up to 3.5 percent moisture, corn sirup solids dry basis, are estimated as 61.5 percent of shipments of miscellaneous refinery products as reported. For earlier treatment of this item see Sugar Reports 93, page 6.

^{4/} Distributed among the various types of buyers listed above.

1/ Spot prices are for bulk sugar under Contract No. 10 which, beginning November 21, 1966, replaces Contract No. 7. The terms of these contracts are duty paid or duty free, full duty rate .625 cent per pound.

2/ Spot prices are those under No. 8 Contract which is for bagged sugar f.o.b. and stowed at Greater Caribbean ports (including Brazil).

3/ The No. 10 "Domestic Bulk" Contract has been adjusted by deducting duty (.625¢), computed freight from the Greater Caribbean ports (including Brazil), insurance and unloading charges and adding the bag allowance (currently .055¢) before calculating the differential from No. 8 "World" Contract spot prices.

4/ These are basis prices in 100-pound paper bags, NOT delivered prices. To obtain delivered prices add "Freight Prepays" and deduct discounts and allowances. For illustration see Sugar Reports 81, January 1959, pages 5 to 9.

^{1/} Gross basis price in 100 pound bags subject to a 2 percent cash discount.

^{2/} Hydrate, commercial bags less than carlots, ex whse., N.Y. 100 lbs. Beginning April 1964 price is for 600 bag carload f.o.b. N.Y.

^{3/} In drums, price in carload lots, except from February 1962 to April 1964 for less than carload lots. Beginning April 1964, price is for tank cars f.o.b. New York, per cwt. Quoted as 42 percent unmixed, except beginning March 1956, quoted as 43 percent unmixed.

^{4/} Assumes price is for 92 percent solids for dextrose and 80.3 percent solids for corn sirup. Thus dry basis price is quoted price divided by 0.92 for dextrose and 0.803 for corn sirup.
